Subject: CONTRACT DISPUTE OVER THE STATUS OF REAL TIME DIGITAL SIMULATOR ASSEMBLIES

Good Evening [redacted];

I am contacting you at the request of [redacted] in regard to some difficulty that my office is experiencing with INL over the disposition of some Real Time Digital Simulator (RTDS) assemblies that [redacted] had been using in support of his project as well as the AURORA project. The source of the controversy is over the final custodianship of the RTDS assemblies between Battelle Energy Alliance (BEA)/DOE and DoD. Until recently four of these assemblies were in [redacted] custody, but INL has demanded them back following the successful conclusion of the AURORA project.

It is my understanding based on the language in the contract that DoD owns ALL of these devices and I as the DoD representative for the

projects on which they were being used am requesting that they be returned. Please let me know if you have any questions or need any additional information from me. Thanks much for your attention and cooperation in this matter.

Sincerely,

[redacted]
