Subject: Incident of Security Concern Report

This morning I received the classified (S/RD) BEA Inquiry Report for the IMI 1. It is ready for me to send to HQ HSS. A copy of the report is available over here at IAB if you would like to review it. The report itself is 36 pages and with all of the attachments it is 261 pages total.

I am on travel next week but will leave a copy with [redacted] if you would like to review it.

Thank you

[redacted], regular distribution is fine. Thanks for checking on this for me.

[redacted]
I confirmed with the Contractor that the Inquiry Report for the IMI you asked about is completed. They are chasing review and signature for the transmittal letter from their management for the report DOE-ID. Upon our receipt and review we will put a cover memo on it to [redacted] and send it via classified mail channels. Please let me know if enforcement needs a different than normal distribution on this one.

Thanks
