[redacted]

Thanks, we appreciate your efforts and I apologize if we caused you some confusion concerning the pending inquiry report. I did leave you a voicemail explaining the rationale for [redacted] earlier discussion with you. Just so you know, we have had sites tell us that an inquiry has been closed for months and yet HS-80 had not entered the information into SSIMS for us to review. I am hopeful the existing process of sites entering their own data in SSIMS that the timeliness issue will be appropriate resolved.

If you have any questions or would like to discuss, please let me know.

Thanks again,
[redacted]

Steve, I will send you an FYI email after the report is received here and we have put it in the classified mail to HQ so you know its on the way.

Take Care, [redacted]
