[redacted]

Thanks, we appreciate your efforts and I apologize if we caused you some confusion concerning the pending inquiry report. I did leave you a voicemail explaining the rationale for [redacted] earlier discussion with you. Just so you know, we have had sites tell us that an inquiry has been closed for months and yet HS-80 had not entered the information into SSIMS for us to review. I am hopeful the existing process of sites entering their own data in SSIMS that the timeliness issue will be appropriate resolved.

If you have any questions or would like to discuss, please let me know.

Thanks again,

Thank you [redacted], it is actually a number of Security Incidents we have been interacting with BEA on, not Security Enforcement issues. I will let you know if I hear from Steve.

Subject: BEA - HS-43 Germantown meeting this week?

[redacted],

I met briefly with [redacted], DOE-ID Security Operations, who informed me that he learned today that [redacted] and others from BEA will be in Germantown this week. [redacted] stated that he and [redacted] have been interacting with BEA regarding an INL Security Enforcement issue and are still waiting to receive information such as the Causal Analysis and the Inquiry Report from BEA.

Please contact [redacted] by email or at [redacted] at your earliest convenience. He and [redacted] would like to know if you are planning on meeting with BEA in Germantown to discuss this issue and if BEA intends to provide copies of these reports to you. I cannot be involved with this issue given my current clearance level. Thanks for your assistance.

[redacted], FYI, [redacted] informed me that [redacted] and [redacted] were going to be meeting with [redacted] this Wed at HQ. He said [redacted] wanted to take the IMI 1 Causal Analysis there with him. That is an attachment to our Inquiry Report and we have not seen it or even received our Report yet so that WE can make distribution to HQ. I went and spoke with [redacted] DOE-ID and he did not know anything about this either. He will do some checking with Steve.

I will be unavailable all next week. I will be at the Event/Incident/Investigation workshop on Monday and Tuesday and on travel to Germantown on Wed and Thurs. [redacted] will be handling all regulatory activities. I will have my cell phone in case of emergency.

Thanks
