[REDACTED] consider adding the following items to the agenda:

- Progress on ISMS Phase II preparations.
- What they're doing with the seatbelt exemption question they raised a couple of weeks ago, for the operators wearing the Level B suits in the box retrieval mockups.
- What they're doing to address the employee concerns recently raised?
- Safety incentives for continuing work activities. (Last I heard, they had some production and safety incentives in place for 1Q FY-13. Are there new ones for the work going forward?)

For the AMWTP IPT meeting on Wednesday the focus will be safety and oversight. I have attached a preliminary agenda. Please let me know if you have any topics that you would like to add to the agenda. I will plan on sending this to ITG tomorrow, so please let me know if you have comments by tomorrow morning.

Thanks,
